TOP-FLIGHT BOXING ON TAP IN MORINVILLE APRIL 25

MORINVILLE—One of Alberta's greatest sporting centres, Morinville is to have a professional boxing card on Saturday, April 25th. This was released today by promoters George Bougie and Jitery Jack Berry. The site of the proposed card will be the Morinville Recreation Hall. In announcing the fight, promoters Berry and Bougie said that the reason that Morinville was picked was because of the exceptionally high interest shown by the Morinville fans in their attendance at Edmonton fight cards.

There will be a triple main event of three round bouts. In the feature bout of the evening, Morinville's own Charlie Schaffer, has asked for a chance to redeem himself before local fans after losing in Edmonton. His opponent will be the colored sensation, Wilfred Brown, from Amber Valley who knocked out Tommy Hutchinson, the fighter who beat Schaffer, in his fight in Edmonton last week.

Charlie is training hard for this important battle in his comeback career. In another six rounder, Pete Wess Pete Almondale, Canadian heavyweight champion, also is out for revenge and has challenged Ericson, of Kinuso, to a return match. Ericson, it will be remembered stopped Pete in his last Edmonton appearance. These two heavies stole the show on that card.

In the other stake, ever planned the Jockey-Fromer, from Ponkton, will trade punches with Edmonton's Kenny Anderson.

In other bouts, Beane Wynk will take Jersey Joe Edwards from Amber Valley. There will be one other bout on the card and a battle of four local boys will start things off at 8 p.m.

The officiating will be taken care of by a number of sports celebrities from Edmonton. Judges will be Al Shaver, CPN Sports Announcer, Leo Hemminger, C.F.R.A. Sports Announcer, and Jim Brooks, Journal Boxing Writer. The announcer will be C.J.C.A.'s Sports Announcer, Joe Carbury, and the referee will be Canadian heavy weight O'Connor and Gordon Grayson.

The main event boxing gloves have been donated to the Curling Club proceeds of which will be used by the club. Tickets will be on sale in Morinville under the supervision of Louis Chaffaux.

Pre-flight response has been so strong in Morinville Jack Berry has decided to have the fighters work out a two evening series to the card. Mr. Tailleure, manager of the Recreation Hall, has obligingly consented to allow the public to view the pre-flight workout in the hall.

Premier Jack Berry will show films of the Earl Walls - Grant Butcher fight following the workouts.

Vows Exchanged In Legal Church

Thursday morning, April 9th, in St. Emile's Church in Legal, N.W., Almondale of Morinville and Maria Theresa Silvestro of Legal exchanged marriage vows.

A large number of relatives and friends met for the occasion to assist at the nuptial blessing and to enjoy the wedding celebration.

The district extends best wishes and congratulations to the newly wed couple who will reside in Morinville.

CHARLIE SCHAFER
Hard-hitting Morinville Boxer.

Curlers Hold Banquet And Dance

ST. ALBERT—The curlers annual banquet and dance was held at the Mocambo on April 13. Mr. Harold Vague acted as chairman. The following spoke briefly: Mr. W. L. Veness on behalf of the town; Mr. F. L. Atkins on behalf of the Community League; Mr. John McDunnell as president of the Men's Curling Club and Mrs. Frances Flynn as president of the Women's Curling Club. The cup was presented to the George Kluthe rink for winning the square draw. About 120 persons attended the banquet and enjoyed the dancing.

Alberta has fewer than 1,000,000 people subsisting on 44,000,000 acres of land.

ST. ALBERT NEWS BRIEFS

Mr. Mitchell, who lives on the corner property leading to the new Drive-In Theatre, will act as caretaker for the project during the summer.

Mr. Frank Ball has left for three weeks on a business trip to Saskatchewan.

Our sympathy is extended to Mrs. Robert Gibb on the death of her grandmother, Mrs. Gravelle of Morinville.

Mr. Guy Rabaud as district representative of the Sturgeon Local of the A.T.A., attended the annual general meeting at the Macdonald hotel on Monday Tuesday, Wednesday of Easter week.

Born to Mr. and Mrs. Ted Dolhagay on April 2, a girl. Congratulations.

Mr. and Mrs. Gus Bourgeois of Father are presently visiting in St. Albert. They will attend the wedding of her cousin, Miss Solange Curial on April 15.

Mr. Walter Borie is presently building a home in St. Albert, near Mr. Proulx.

Mr. and Mrs. Geo. Horrieks and Mr. and Mrs. Geo. Horrieks are away on a ten-day vacation in the northwestern U.S.A.

The Lions recently took down and put away the electrical fixtures

Coming Plebiscite Discussed

ST. ALBERT—The final meeting before the plebiscite on April 15 is taken, was held in the Community hall on Sunday evening. It was well attended, approximately 125 being present. Mayor W. L. Veness acted as chairman. The speakers of the evening were Mr. Dexter of the Dept. of Health, Dr. Cuts, Father Tardiff.

Also present were three citizens of Legal, namely Mr. Messier, district trustee; Mr. Teton, secretary of Legal; Mr. Carriere, past secretary of Legal. These men stressed the advantages, satisfaction, comfort and low cost of the water and sewage system in Legal. In closing, Mayor Veness thanked the councillors for the long hours they had put in working on the plan for water and sewage in St. Albert. He also thanked the speakers of the evening and the citizens of St. Albert for attending the many meetings and endeavoring to understand the facts of the project before casting their ballots on April 15.

Agricultural Service Board Plan Bang's Disease Vaccination Program

MORINVILLE—At the first meeting of the Agricultural Service Board for 1953 several pressing items of business were discussed. Among these items was the need for another Bang's disease vaccination program. This paper carries an advertisement giving the details of the plan.

Dr. Wheelham of Westlock will be contacted regarding this program.

The minutes of the first meeting, which was held on April 9th, in the Council Chambers, in Morinville are as follows:

Present: John Schafers, Chairman; Stanley M. Walker, Councilor; Albert Soetens, Farmer; Wm. H. Price, Farmer; J. M. Fontaine, District Agriculturalist; J. Oscar Ellett, Secretary-Treasurer; Walter Ellett, Field Supervisor.

Meeting Called to Order

The Chairman called the meeting to order at 2:30 p.m.

Reading and Adoption of Minutes

The minutes of the meeting held on October 25th, 1952 were now

in the granary coat was used for a skating dressing room the past winter. Mr. Chas. Horrieks owns the granary.

Little Carol Armstrong spent a few days of Easter week with her aunt and uncle, Mr. and Mrs. Johnstone in Edmonton.

Mr. and Mrs. Chas. Laderoute visited in Spokane recently for 10 days.

The Gazette regrets to report that Mrs. Vague's brother Lloyd who teaches at Allandale in Edmonton recently underwent a major operation.

The children and grandchildren of Mrs. Wm. Veness Sr. surprised her on the occasion of her 80th birthday on April 13. Also present were Mr. and Mrs. Victor Leonard, Miss A. Leonard and Mrs. Torstein.

Mrs. W. L. Veness Jr. made the nicely decorated birthday cake. The evening was spent playing cards and singing. The Gazette wishes to extend many happy returns to Mrs. Veness.

On Friday evening the St. Albert Town Planning Commission met in the town office. They report that a new project is being laid in St. Albert is evident. The new members of this commission are

Sturgeon S.D. Call Special Meeting To Discuss High School Facilities

EDMONTON—High School facilities for Sub-division 2 of the Sturgeon School Division came under discussion when a meeting of the delegates from the various districts met to plan future school constructions. Though no agreement was reached at the meeting, a good deal of useful information was received.

The minutes of this special meeting of the Divisional Board of the Sturgeon School Division No. 24, which was held on April 9, 1953, at the Divisional Office read as follows:

Meeting held at the call of the Chairman to discuss High School facilities for Sub-Division No. 2.

Roll Call
Present: Messrs. Chauvet, Cunningham, Veness, McEue, Messier, Scott and Meaden.

Mr. Chauvet called the meeting to order at 2:15 p.m. He explained the reason for calling this meeting and the minutes of the meeting at Riviere Qui Barre on March 30 were read.

Delegates

Present at the meeting of today (April 9):
Almondale: Messrs. Britton, Mills, W. Sime, W. Kenneth, Art Gill.

Calahoo: Messrs. Stanley Walker and McDonald.

Camilla: Messrs. McNamara, McRae and Willis.

Glengarry: Messrs. Anus, McRae and Willis.

Gill: Messrs. Borie, McRae, McRae and G. Soetens.

L'Abbe: A. Turgeon.

Ripuel: Mr. Boissonault.

St. Charles: Messrs. Kluthe, Borie, Sheehan and Johnston.

Teller: Messrs. Robert Teller, A. Sabourin.

At the meeting held on March 30, at Riviere Qui Barre, local trustees from Almondale, Means, Glengarry and Riviere Qui Barre were present. Delegates from Calahoo were held up on account of bad roads.

The Divisional Board was represented by the Chairman, Mr. Paul Chauvet, and by Mr. Cunningham. It was stated at this meeting by a delegate from Means that the school at Means would like to keep its grade ten.

Delegate from Almondale stated that it was the wish of Almondale trustees to keep up its grade eleven.

Riviere Qui Barre would sacrifice its grade ten if needed for a better high school centre.

This meeting was deemed that to build a high school for September, 1955, would be impossible.

No agreement was reached at this meeting, but a lot of useful information was gained.

After reading of these minutes of March 30, Mr. Chauvet said that we had to plan for the future. The building program for 1953 is being carried out and there will be no funds available for additional construction.

He expressed the hope that the delegates would get together and agree on a centre for a high school.

(continued on page 2)

Lions Club Elects New Slate

ST. ALBERT—The Lions held their regular meeting at the Mocambo on Tuesday evening, April 7. As usual, it took the form of a supper meeting. New officers were elected. They will begin their terms of office on July 1 with the exception of those who filled immediate vacancies. President, W. Elmer; Vice-President, E. B. Leclair; Second Vice-President, D. Cuts; Third vice, to be elected; Sec.-Treas., G. Raboud, Lion Tamer, W. Borie, Tail Twister, S. Bonnyville. The new directors are Germaine Borie, Verne Hettiger, Wm. Veness, Mr. Chas. Horrieks is still a director.

The Lions have 30 members. Father Labonte, who was here on business, attended the supper and meeting. This service club voted to support the proposed waterworks and sewage disposal plebiscite 100 per cent. On the day, April 15, when the plebiscite was taken, the Lions had their cars at the disposal of the voters.

read to the Board.

Moved, by Stanley Walker that the minutes be adopted as read. Seconded by Albert Soetens.

Carried

Discussion of Minutes

The Pure Bred Site Act was now discussed by the Board. The pros and cons of said act were gone into. The Personal Policy whereby bulls may be loaned to a group of farmers was explained by J. M. Fontaine. Approximately 3 name signatures are required on the petition in order to have the municipality declared a Pure Bred Site Area. A suggestion was made that possibly the Weed Inspectors could be employed to cover the balance of the district in an effort to complete the petition.

Motion Re Pure Bred Site Area

Moved by J. M. Fontaine that we (Continued on Page 3)

Local Girl Showered

ST. ALBERT—On Wednesday evening, April 8, about 40 women gathered at the home of Mrs. Henry Benion, in honor of bride-to-be Miss Solange Curial. Co-horties were Mrs. George Gaudin, Mrs. Vague and Mrs. Blair also assisted. The gifts were presented in a nicely decorated wagon drawn by a miniature bridal couple, Jeanne Benion and George Calver.

Vague, secretary, E. Perron, R. Lafranchise and C. McMillan.

Your Red Cross convenor wishes to report that St. Albert and district, through their canvassers, donated \$267 to the campaign.

The Group Committee, which sponsors the Scouts and Cubs, met in the library on Saturday evening. Mr. Maurice Roberge acted as chairman. Many important items were discussed. The bean supper for Scouts and Cubs and their parents will be held on Sunday, April 19 at 8 p.m. in the Parish hall.

Sturgeon S.D. Calls Special Meeting . . .

(Continued from Page 1)
to serve the area represented by the delegates.

Mr. Sime, delegate from Alcomdale, stated that Alcomdale has a room promised to them and suggested, as an experiment, that the Divisional Board build this room and leave the Banfill School operational for the time being.

Mr. Klutho, delegate from Meurons, said they wished to remain as they are.

Mr. McRae, delegate from Camilla, expressed the opinion that a high school should be built in Riviere Qui Barre, this being the logical centre for the area under consideration.

Mr. Stanley Walker, delegate from Calahoo, said the whole district would be willing to go to Riviere Qui Barre for High School. Mr. McDonald, Calahoo, said it would be to the advantage to have a high school for the area offering grades Nine to Twelve.

Mr. Tellier, delegate from Tellier S.D., said they would like to have their High School in Morinville. This was the wishes of the ratepayers in his district. Mr. Turgeon, delegate L'Abbe S.D., said they would prefer a centre in Morinville.

Mr. Boissonneault, delegate Bisset S.D., said his preference was to have a centre in Morinville. Mr. Cyrille Cloutier, delegate St. Charles (Morin), said he thought it would be beneficial to have a Divisional School in Morinville.

Mr. Prudent Barle, delegate Glenogry said he was interested in high school education and thought that Riviere Qui Barre would be an ideal location.

Mr. Angus McGillis, Glenogry, said he was in favor of building

a High School at Riviere Qui Barre.

Mr. McCue, vice-chairman of the Divisional Board, explained the High School situation as it now is in his sub-division (No. 5) and at Bon Accord and Namsio. It was evident that in order to operate an efficient High School, it was necessary to centralize a number of local districts.

The building program is one year behind schedule and the Divisional Board hope to catch up during 1953.

Superintendent Scott explained the regulations of the Department of Education as affecting high schools. He said that students taking correspondence courses recently have been generally quite successful in securing necessary additional credits.

Mr. Chauvet, Chairman of the Divisional Board, suggested Riviere Qui Barre as being a logical centre, being more convenient to all concerned.

Local Boards should decide by vote on the location of a high school centre.

Mr. Scott suggested that things be left as they are for year and plans made for a good high school for 1954 to serve the area.

Mr. Chauvet suggested that a resolution be passed by the Divisional Board at its next meeting, and sent to local boards for ex-

pression of agreement, or otherwise.

The meeting adjourned at 4:30 p.m.

The Canadian gold mining industry employs 22,000 persons.

ALBERTA TO GET CANADA'S FIRST GAS TURBINE

From the head office of Canadian Utilities in Edmonton, Mr. R. Nurse, Superintendent of Production, announces the placing of an order for a 7,000 K.W. gas turbine electric generating unit at a cost of approximately Five Hundred and Sixty Thousand Dollars (\$560,000.00) for installation at Vermilion where the present natural gas fired steam plant is located. By this provision, the over-all capacity of this plant will be almost doubled.

The Vermilion plant is the central source of supply for the Vegreville district of the Company, extending from west of Vegreville to the Saskatchewan boundary and as far north as Cold Lake. Within this district, service is furnished to 61 urban communities, 3 oil fields and 21 rural electrification districts. There is a steadily increasing demand for more energy from all these sources, particularly from the oil industry and the rural section. In addition to this, the Company is being called on to supply the extensive electrical requirements of the large project of the Department of National Defence at Cold Lake on the Alberta-Saskatchewan boundary.

The gas turbine is a mechanical device, and in its simplest form consists of a compressor, a combustion chamber and a turbine. The compressor and the turbine being connected together on one shaft. The compressor draws in air and compresses it to about 75 lbs. per square inch and forces this air into the combustion chamber where it is mixed with a fuel such as oil or natural gas. Here it is ignited and burns with a continuous flame to raise the temperature of the air leaving the combustion chamber to approximately 1200 degrees F. This highly heated air has expanded and has increased in volume several times. It then travels at high velocity through the blades of a turbine, causing the whole assembly to rotate, thereby supplying power in the form of a rotating shaft. The shaft can then be connected direct to its load which, in this particular case, is an electric generator. Other forms of load to which these turbines are connected are pumps, other compressors, propellers

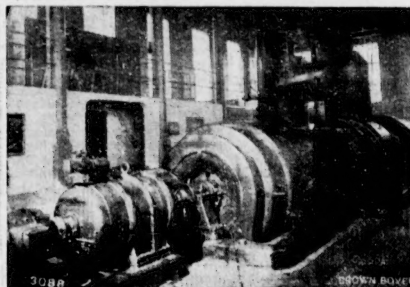

aboard ships, railroad locomotives, generators and so forth.

The engineering studies on the development of the gas turbine have covered a period considerably in excess of 20 years. What was being sought was the production of power directly from the introduction of fuel, in a simpler form than the internal combustion engine or the steam engine or steam turbine with gas or fuel oil fired boilers. In all the planning the main objective was to arrive at a plant, simple in design and construction, where maintenance and operating costs would be materially reduced.

One of the nearest approaches to the gas turbine generally known today is the turbo-jet aircraft engine which actually sprang from the principles of the earlier gas turbines and was developed during World War II. Certain basic principles are common to both of these, but the end results looked for were different. For industrial application, the power must be transmitted through a shaft; with the airplane, it is simply a matter of power thrust against the resistance of the atmosphere.

When this gas turbine is placed in service in the summer of 1951 with an estimated overall cost of \$620,000.00, it will be the first of its kind to be installed in Canada. While this is true, the gas turbine for electrical generation is well past the experimental stage. Several units have been installed in the Eastern and Western Hemispheres and some of these have been in operation long enough to demonstrate the advantages of the new turbine and its economy and reliability in operation.

Some of these established advantages compared with other types of thermal plants are:

GAS TURBINE installation similar to that which has been purchased by Canadian Utilities Limited at Vermilion, Alberta.

or no cooling water is required; they are compact and thus require smaller housing accommodation; they can be placed in service rapidly; they are much simpler than either the conventional steam turbine or the internal combustion engine and finally their cost is generally lower than other types of thermal plants of a like capacity. However, their loading must be kept high to be economical.

Prominent in research work leading up to the development and application of this new prime mover to duties such as the generation of electric energy has been the firm of Brown-Boveri Limited in Switzerland. As a result of their outstanding success in the field, it is appropriate that Canadian Utilities' order for the new 7000 K.W. unit should be placed through Brown-Boveri Canada Limited.

This company recently opened a plant near Montreal where electrical equipment will be manufactured. This particular 7000 K.W. installation will, however, be manufactured at the parent plant in Switzerland.

SHOOTS AT DEER, KILLS FATHER

CROSS CITY, FLA. — Seeing a deer's antlers through the brush, Bob Rosier, 33, let loose with his rifle. The shot killed his father, W. H. Rosier, 51, of Gainesville. Mr. Rosier had just shot the animal himself and was bending over to cut its throat when his son, sighting the antlers, also shot.

PUBLIC BUBBLE BATH

LONDON — A prankster turned Trafalgar Square's famous fountain at the foot of Nelson's Column into a frothy bubble bath to the delight of passers-by but the constabulary of public order in the square poured detergent into the pool and water from the fountainheads churned it into snowy lather.

5¢ for EMBARRASSING MOMENTS

We have lived in the city for a few years now and it has been my task to pay our gas bill many times. Nearly every time I have paid it at the main office rather than the bank. Last week I was down town, quite busy, when I decided to pay this bill. I rushed into the Civic Block and stood in line for about five minutes, rather impatient at the delay. Finally when I arrived at the wicket the clerk looked at my bill and said, "The sorry you don't pay this here but you must go to Northwestern Utilities on 104th St." I guess the people there must have thought I had just arrived in the city. Did I ever feel foolish!

I.E.H.

North Edmonton

I was clerking in the dress department in a large store while a big sale was in progress. People were milling around bumping each other and there wasn't a foot of floor space to spare. I swung around quickly and slammed hard into a feminine figure, grabbed the poor thing with both hands and began apologizing profusely. It turned out to be a dummy, and a good many customers got quite a kick out of my embarrassing moment.

Watch That Tractor

The farm tractor is a killer! Without doubt the most dangerous item on the farm is the tractor. Practically every week someone in Alberta is crushed beneath the wheels, pinned under the upturned frame or wound around a pulley or shaft of this streamlined giant. In most cases the cause of the accident is carelessness—a lack of appreciation of the tremendous power that can wreak havoc as easily as it performs miracles.

Ten simple steps to greater life expectancy for the tractor driver are offered here by C. A. Cheshire, Extension Agricultural Engineer, Alberta Department of Agriculture. If applied, they will go far towards reducing tractor accidents.

1. Don't let children drive a tractor. A child too young to handle a twelve horse team shouldn't be asked, or allowed to handle a twenty or thirty horse outfit that doesn't even have horse sense.
2. Don't allow riders on the tractor. There is only room for one person on the seat. No one else should be riding on the machine.
3. Don't hitch a tractor too high—the point of pull should always be below the back axle. On hilly or uneven land it must be lower than on flat, level land.
4. Don't wear ties, or loose or ragged clothing around a tractor.
5. Don't try to operate clutches from the ground.
6. Apply and lock wheel brakes, and leave the tractor stopped and in gear if you have to stop on a grade.
7. Keep away from soft ditch banks and road shoulders.
8. Stop the engine when refueling the tractor.
9. Never drive a tractor when weary. Relax, or even take a nap for a few minutes if you start to feel drowsy.
10. Slow down. The combination of road gear and steering brakes acts too fast for human reflexes.

Eggs and Spots

(Toronto Saturday Night)

There is something very puzzling about eggs. Not so long ago we kept a flock of hens, for our own use, for amusement and we hoped, for a little profit. It was an educational experience, if not so amusing as we had expected; we soon learned that hens lay all sorts of eggs other than Grade A Large, and that eggs which have slight flaws like blood spots in them are called "rots." We did not get the rots back from the grader, and we were not paid for them because it was said they could not be sold.

The other morning our breakfast menu was changed because the last two eggs in a carton marked Grade A had huge blood spots in them. There is always the possibility, of course, that those eggs had been inspected by a grader in the throes of a hangover; but we can't help wondering what really happened to those rots for which we never collected any cash.

Note and Comment

The wheat crop in the Union of South Africa in 1952 totalled 13 million bushels compared with 25½ million in 1951. About 11 million bushels will have to be imported to supply the domestic demand.

The faithful horse, which for years was the source of draft power on Canadian farms, is fast disappearing therefrom. The decline in horse numbers on these farms in the past 28 years totals 2,644,202.

Foods worth about \$700 per United States farmer are exported from that country each year. They include 55 per cent of the total rice production, 45 per cent of wheat, 35 per cent of cotton, 20 per cent of tobacco, 30 per cent of lard and 15 per cent of soybeans.

Canadian sales of wheat under the International Wheat Agreement totalled 154½ million bushels in the first seven months of the 1952-53 crop year. Among the major buyers were the United Kingdom with 54.8 million bushels, Belgium with 13 million, India with 11.2 million and Italy with 11 million.

The Wild Horse Roundup

By SENATOR F. W. GERSHAW

For centuries the fox hunt has been the big sporting event of the season for British people. Songs, pictures and stories have given everyone a knowledge of what it involved in the way of preparation and skillful horsemanship. Although not so colorful, the wild horse roundup calls for even more hard riding and endurance.

Hands at non-tended horses are found in the remote hills of Southern Alberta and the Northern States. They are as wild as deer, and because they consume much valuable grass, the stockmen from time to time make an attempt to get rid of them. They do this by rounding them up, selling any of them if they can and shipping the remainder to a fox-meat factory at \$3.00 per head.

These unnamed animals are swift and nifty. When pursued, they will circle and hide. They break up into two or more herds and run in different directions. In a rough country, the riders may not see the outlaws for long intervals. They will only hear the thuds and clucks of the hooves on the stones. They must follow the hoof marks through bad lands and, at times, a strip of riley water in a clear running stream alone indicates their nearness.

On the day of the drive, riders will go around the area of the feeding grounds and, at sunrise, take positions on the crest of a high hill. At a signal, they will start downward through the thick scrub where there are rocks and fallen trees but no trails. They will have difficulty in locating the herds but if they persist they will come upon the heads of the band. There will be no mistaking him for a domestic horse. His mane will be long, falling over his face and down to his knees. He will be standing with head erect snuffing the breeze and will make a magnificent picture. This stallion will give a signal and then dash through the brush, followed by the mares and colts. If an open space is found, the leader will run along with his head down like a bound dog following a scent.

The chase will continue over creek and swamp, down hills and over open areas at a killing pace for the riders. Sometimes the position of the herd will only be located by a cloud of dust like a water-spout over a quiet sea.

After five or six miles another group of riders will take over and finally the exhausted animals will be guided into pens, perhaps at a shipping point.

It is a brutal sight to see, say, 200 of these graceful animals in a pen—the stallions in their fury will fight and strike at each other. In the general melee, many of the colts are wounded and trampled to death. The frantic mares whinny and mill around, hoping to get their young ones out of the fighting mass.

Armed with quips, sticks and poles, men on the rail of pens about and whack the panic-stricken animals into the cars. When then pens are empty, the job is done. The riders return to camp unmindful of what happens to the captives in the cars.

Order Chicks Now

Order chicks early and order early chicks, advises F. J. Higginson, Acting Poultry Commissioner, Alberta Department of Agriculture. Early chicks make the most economical gains and come into production at a suitable date, he says. They are likely to produce a greater number of eggs during the season when the price is attractive.

Farmers who think they can go into a hatchery and buy chicks at any time may be disappointed. As a result of previous experience hatcherymen are playing safe this year and keeping their settings pretty well on a level with orders received. Reports indicate approximately 200,000 eggs less in Alberta machines this year than the same date last year. Avoid disappointment by ordering your chicks without delay, Mr. Higginson advises.

The Bible Today

... And at midnight Paul and Silas prayed, and sang praises unto God; and the prisoners heard them. And suddenly there was a great earthquake, so that the foundations of the prison were shaken; and immediately all the doors were opened, and everyone's bands were loosed. And the keeper of the prison awaking out of his sleep, and seeing the prison doors open, he drew out his sword, and would have killed himself, supposing that the prisoners had been freed. But Paul cried with a loud voice, saying, Do thyself no harm: for we are all here. Then he brought them out and said, Sirs, what must I do to be saved? And they said, Believe on the Lord Jesus Christ, and thou shalt be saved, and thy household. And they spake unto him the word of the Lord, and to all that were in his house. And he took them the same hour of the night, and washed their stripes; and he was baptized, he and all his, straightway. And when he had brought them into his house, he set meat before them, and rejoiced, believing in God with all his house.

—Acts 16: 25-34.

Voice of the People

ANSWER TO "TAP ROOT"

I will answer a few things which you had in your letter.

We have two very fine clubs organized in our district, but will the people join them? Not They are either too busy and tired after looking after two or three children, or can't take time away from the beer parlor, or it may cost them a dinner or so to join.

As for coming to church, well they will come if we serve lunch after, but if not they haven't time.

And we also have a few who go around and run our church and clubs down, so that new members

don't know whether to come or not.

Wouldn't our fashion shows be lovely when most of us have as 30 wats? Of course there are a few who think they still look like high school girls.

So come on folks, make a success of the clubs we have and most people will like and respect us.

"TAP-ROOTS" NEIGHBOR.

OVERWEIGHT

Please send me your Reducing Chart. I hope it works as well with me as it did with Mr. Fue.

FATTY

CONVERTIBILITY OF MONEY

A great deal of talk is going on about the convertibility of the Pound Sterling. All agree that if only the Pound Sterling were convertible into American dollars that Britain could do much more trade. But some are frightened that Britain does not have enough reserves in gold or American dollars to support the pound in case big demands were suddenly made upon her, and they consider that Britain had better wait until tariffs come down in the United States and Canada and other countries so that British trade can increase.

The reply is that if we wait as long as that it will be generations before the pound is convertible, and that during the interval the world will lose its faith in the pound and will join the dollar block.

It is asserted that if Britain will only take a chance to free the

pound that she would do so much more business the world over that countries like the United States and Canada would then, in self-defence, be obliged to lower their tariffs, that Britain's prosperity was built up because Britain and her merchants took chances, and that now is the time to take bold, seasoned chances again.

MARVELLOUS CAREER

For YOUNG MEN
with some plastering
experience!

Young men, (must be at least 5 feet tall), required immediately to train as mechanical Drywall Taping operators. Some plastering experience required. Successful applicants will undergo 3 months training period with pay. Must be free to travel anywhere in Canada. Men who qualify as Master Tapers will earn as high as \$1.50 per hour. Immediate employment available.
Business and hospitalization benefits.

Unlimited opportunities for advancement to managerial positions for men with ability and initiative. Personal interviews arranged at our expense for successful applicants. State educational status, age, experience and other background information in applying.

Please apply in writing
Box 310, Edmonton, Alta.

LETTERS TO LOUISA

Dear Louisa:

I am a spinster and live alone. I have a small yard but a very pretty one. I enjoy working in it and am a very good of the way it looks.

Just recently a family has moved in next to me with four children. They jump over the hedge into my yard, break down my flowers and climb my trees. What can I do? The parents seem to be nice people but never seem to think their children are misbehaving.

Answer:

With all the playground space available, nowadays, there is no excuse for people letting their children run wild over their neighbors' territory. If they haven't the space for their children to play in they should see that they take advantage of the public playgrounds.

It is certainly discouraging to plan and work in a garden and have it wrecked by children who haven't been taught to respect other people's belongings.

Have a quiet talk with the children first and if that doesn't help ask the parents to keep them in their own yard.

Louisa:

I hope you can help me. I am single and was going with a girl I really loved. I lost her but I still have hopes she will come

to me some day and see that I was her friend.

I lost her through a married man telling her things about me. I wrote to her different times and tried to tell her that this man was only making trouble between us but she didn't answer my letters. I still have her picture and I haven't given this girl up yet. I see other girls but I don't bother going out with them because I love this girl.

Do you think I ought to send her picture back and try to forget her? What do you think I should do?

Broken Hearted Dan

Answer:

Well Dan, if I were in your place I think I would make an effort to see this girl and explain my position to her. I think you can do more by seeing her than by writing to her.

I don't know what the man could have told about you but she is certainly not treating you right by not letting you defend yourself.

I think you are making a mistake, however, by not going out with other girls. If she keeps on acting this way, there is a possibility that she was tired of going with you and is just using these tales as an excuse to break off with you.

If she refuses to hear your side of the question, I think you will be wise to return her picture and try to forget her.

Louisa

CANCER CRUSADE LAUNCHED IN ALBERTA; PROV. QUOTA \$200,000

A drive to raise \$1,500,000 throughout Canada to fight cancer was launched this week in Alberta.

The announcement was accompanied by a statement from G.R.A. Rice of Edmonton, President of the Alberta Division of the Canadian Cancer Society and a message from Society Provincial officials.

"The key to success in fighting cancer," Mr. Rice said, "is the volunteer worker. On the eve of this Crusade I want to pay tribute to the volunteers in this community who will shoulder the task of raising funds and informing people how they can best guard against cancer."

The entire programme of cancer control hinges on their work. If it were not for their efforts there would be no national half-million dollar research programme; there would be no service programme for cancer patients and there certainly would be no chance of people getting the life-saving facts about detecting and curing early cancer. We have been assigned a goal of \$200,000 as our share in the National Campaign. I want to make sure everyone realizes that this is a minimum figure. We can, with a

quota, I am sure that all the residents of this community will join me in this objective.

From the Provincial headquarters of the Canadian Cancer Society came a message praising the local branch for its prompt start in the Campaign.

"You are to be congratulated for your promising beginning," R. N. Talbot of Calgary, Executive Director of the Society's Alberta Division said.

"Your share of Alberta's goal of \$200,000 is vitally important. Every contribution even as little as a dime, is helpful. Ten cents buys a test tube. Twenty dollars will support a research bed for one day. Five-hundred dollars will buy a special microscope and \$16.00 will equip an isotope laboratory. Of every dollar contributed to the Canadian Cancer Society in 1952, 41 cents went to a national research programme, 22 cents was used in the Society's public education programme through films, publications, exhibits etc., 26 cents went to welfare services in behalf of cancer sufferers, while 11 cents was devoted to planning, supervision and administration services.

\$1 for Favorite RECIPE

QUICK RAISIN PUDDING

1 cup brown sugar
1 tablespoon butter
1 1/2 cups boiling water

Place these ingredients on the stove to boil and mix:

1 cup sifted flour
2 teaspoons baking powder
1 1/2 teaspoon salt

2 teaspoon sugar
2 tablespoons shortening
1 cup raisins

1/2 cup milk
Mix the dry ingredients and cut in the shortening. Add the raisins and milk. Pour into a greased baking dish and pour the first mixture over this. Bake for about 10 minutes in a moderate oven.

Miss Mary Walker of Boyle, Alta. receives \$1.00 this week for sending us this very fine recipe. Remember, Favorite Recipe address is P.O. Box 4410, South Edmonton.

THE LIGHTER SIDE

Not Yet

"Have you any children, Mr. Smith?"

"Yes—three."

"Do they live at home with you?"

"Not one of them—they are not married yet."

Perfect

Detective—And do you know what we policemen mean by a perfect crime?

Pretty—Sure If you stole a kiss that would be perfect.

Which?

Shopper—I wish to buy a fashionable dress.

Clerk—Yes, madam; will you have it too tight or too short, or both?

Comeback

"Say, you're the fluff. If I mailed a letter addressed to the 'dumbest man in Boston', I know who they'd deliver it to."

"So do I; they'd return it to the sender."

Mr. Knagg—I never want what isn't my own, and I have a right to my own when I want it.

His Wife—Not when it's your own way that you want.

Quite Appropriate

Tombstone Dealer (after several futile suggestions) — How would just a simple "Gone Home" do for an inscription?

The Widow—I guess that will be all right. It was always the last place he ever thought of going.

Probably Would

Boos (handing back two letters to stenog.) "It would perhaps be better, Miss Smith, if you signed the letters to Dear Jack and Darling Harold yourself.

He Snored

First Traveler—You woke me out of a sound sleep.

Second Traveler—I had to. The sound was too loud.

Enduring

Mrs. Snorily was discussing the latest fashions with a caller.

"Did you say your husband was fond of those clinging gowns?"

"Yes. He likes one to cling to me for about three years."

And Used So Little

"You know women's minds are cleaner than men's."

"They should be, they're changed more often."

CANADA ACCEPTS I.W.A. PRICE WHEAT AT \$2.05 A BUSHEL

WASHINGTON — The majority of the 46 participating countries settled on the terms of the new International Wheat Agreement. The countries include the importing and exporting countries.

Britain, the major importer, did not accept the terms which call for a base price of \$2.05 a bushel. Canada accepted the price.

The delegate of Britain said that his country was not prepared to accept a price above \$2.00.

The present price, effective until July 31, is \$1.80.

The governments of the participating countries must ratify the agreement before it can become effective.

The agreement seeks to stabilize world trade in the grain by means of export and import quotas and by a system of maximum and minimum prices.

That is, major exporting countries which are Canada, U.S., Australia and France agree to sell specified quantities of wheat to importing countries at fixed prices.

Fourteen days are granted to

the participating countries to sign the new pact. Negotiators held the hope that Britain would by that time accept the new figure.

The present agreement quotas total 508,000,000 bushels, or slightly more than half of the wheat moving in international trade. Britain's quota is some 177,000,000 bushels. The failure of Britain to join in would of course reduce the amount of grain shipped under the agreement considerably.

Participating countries were given to July 15 to ratify the agreement which is scheduled to go into effect on Aug. 1 this year.

The new agreement will become effective when ratified by 80 per cent of the exporting countries and 70 per cent of the importing. Delegates from all of the exporting countries signified their approval and more than 70 per cent of the delegates from the importing nations.

The new proposal would set a minimum price for wheat moving under its terms for \$1.55 compared with the present minimum of \$1.20.

Export and import quotas cannot be decided upon until it is determined which countries ratify the pact.

FUA PRESIDENT DISSATISFIED

Henry Young of Millet, president of the Farmers Union of Alberta, said Thursday that the proposed \$1.55-a-bushel floor price under a new international wheat agreement is "not satisfactory" to his organization.

Last year Canada was exceeded in gold production only by South Africa and Russia.

Service Board Plans Bang's Disease Vaccination Program

(Continued from Page 1)

recommened to Council that the above mentioned, whereby Wood Inspectors canvas the district, be considered by Council for completion of petitions already having 472 signatures. Seconded by Wm. Price, Carried.

Bang's Disease

The matter of having heifer calves vaccinated for Bang's Disease this spring was considered by the Board. Advertisements are to be placed in Community Publications for applications to be filled by farmers wishing to have heifers vaccinated. Dr. Whelan of Westlock is to be contacted regarding this vaccination program in the M. D. of Morinville. The matter of the heifer that was reported as contracting infection following vaccination was now discussed by the Board. Some expense was incurred in transporting the heifer to the Veterinarian and for treatments, for which the farmer considered he should be re-imbursed. The Provincial Veterinarian, Dr. Ballantyne had been contacted by members of the Service Board and he stated that other cases could have been the reason of this infection and that proof would be hard to establish. There being no funds available for any re-imbursements, even if conclusive evidence was produced, the Service Board is unable to be of financial assistance to the farmer concerned even though they sympathize with him.

Cunningham Bros., St. Albert Farm
The above mentioned farm which was discussed at the previous Service Board meeting and at which time a decision was arrived at to have Messrs. Cunningham Bros. attend this Board meeting in order that their problem be discussed and although a request had been sent to them, they or their representatives did not appear.

Molson Re Cunningham Farm
Moved by Wm. H. Price that we recommend to Council that this property be placed under supervision in accordance with the Service Board Act. Seconded by Albert Re N.E. 4, 29-34-27-W4B

Considerable discussion now took place on this property on which all cultivated land has a "Notice to Prohibit Seeding" owing to the inability of the owners to handle the situation, the Board decided it would be advisable to have this farm supervised.

Molson Re N.E. 4, 29-34-27-W4B
Moved by J. M. Fontaine and Seconded by Wm. H. Price that we recommend to Council that this farm be placed under supervision in accordance with the Agricultural Service Board Act. Carried.

Seed Drill Survey

The analysis of the 1952 Seed Drill survey was considered by the Board and a decision was reached that a similar survey be taken this year whereby 1 lb. samples of seed being used by farmers be obtained in order to determine if the quality is being improved even though very few municipalities that had surveys showed less rejected seed being used than Morinville M.D.

Grass Seeding of Roadslides

The policy of seeding roadsides on new grades is to be continued. The Provincial Government provides a certain amount of seed for this purpose. The Pony Tractor and sprayer are to be overhauled in preparation for this season's work but the sprayer is to be used only for brush and weed control on roadways or farms supervised or controlled by the Service Board.

Field Supervisor

The Field Supervisor reported to the Board that it appeared that owing to conditions beyond his control he would possibly have to resign within 30 days.

Adjournment

Moved by Albert Soulaert that we now adjourn. Time: 6:15 p.m.

Morinville News Briefs

Mrs. Mary Gravel of Morinville 57 years, passed away on April 8th. She leaves to mourn her passing two daughters and three sons: Mrs. Peter Burle, Morinville, Leo and Joe of Edmonton, Mrs. Prudent of Riviere-qui-Barre and John of Highbridge. Also seventeen grandchildren and thirty-five great-grandchildren. Funeral services were held at the Jean-Baptiste Church at Morinville with Rt. Rev. E. Tessier officiating and interment was in the church cemetery.

Mr. and Mrs. John Gauthier left with their son, Ronald, for

Kenora, Ontario last Sunday where they will visit Mr. Gauthier's two sisters.

Mrs. Felix Houle is a patient at the Edmonton Misericordia Hospital. Though her condition is not critical it is believed to be serious. Mr. and Mrs. Hector Cusco celebrated their 35th wedding anniversary at a reunion of family and friends at the Riviere-qui-Barre Hall on April 8th. The couple were presented with a purse and many lovely gifts.

An operation was performed on Master Ronnie Weigand at the University Hospital last week. Ronnie, son of Mr. and Mrs. Bill Weigand, has now returned home.
